From Juniata and Susquehanna Vallues in Penna. " Vol I:833

"The lovely and fertile valley bounded on the west by Shade Mountain, on the south by Cedars Spring Ridge, on the east by the Ridge at McAllisterville, and sweeping westward 8 miles to Juniata River, at Mifflintown, is called Lost Creek Valley". Emanuel Ebbs is said to have died there in 1840 and in that year is listed among soldiers of the Revolution in Juniata County, a pensioner, living in Fayette Township, "aged 106". Vol I"102. "The first settlers went to the valley in 1755, but no Baumgardners are listed among them."

This is from Mrs. Newman Smith's report.

The 1840 census shows that there was an old man living with Emanuel Ebbs, Jr. who was 100 and up. If this was the Emanuel Ebbs, Rev. soldier, then he was born before 1743, about 1734 if he was 106 in 1840. I think there is some mistake in his age on the census or else on the one reporting thought he was over 100 when he was really only 97. His pension application says he is 75 in 1818 which would make his birth date 1743. If he was born in 1734, he would have been 52 when he was married and 62 when Mary Ebbs was born and 75 when Daniel Ebbs was born in 1809. I think that 1743 was his birth date and this above data is not correct. Rather than raise a question about it, I have omitted it from DAR proof.
